

Box Max

Box Max is the brand new intelligent locker system developed by Magex, a company with twenty years of experience in the field of automation.

The large capacity, the fully automatic management of the doors and the extreme safety are the features that make Box Max ideal for the storage of personal computers, documents, keys, bags, briefcases and various other objects.

Composed of as many as 16 compartments each, the Max Box machines can be combined together to increase the quantity of stored items.

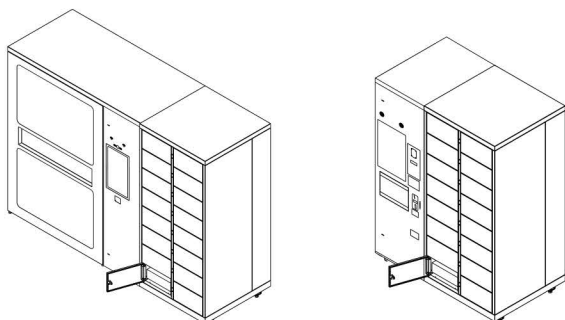

Width	883 mm
Height	1992 mm
Depth	883 mm
Box number	16
Box width	341 mm
Box height	207 mm
Box depth	849 mm (6 upper rows) 599 mm (2 lower rows)

HOW IT WORKS

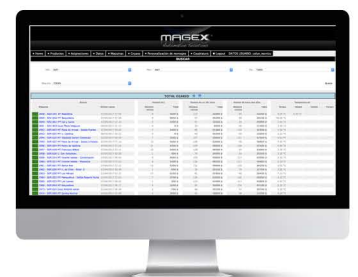

Box Max can be connected to any vending machine or console in the Magex range.

Through the console, the user can communicate with the machine and obtain the automatic opening of his compartment.

REAL TIME DATA SERVICE

Magex provides to all its customers a service for the management of the vending machines updated in real time, connected via web and accessible from laptops, mobile phones etc.

This allows you to view real time data of each sale, the stock status, the coins/banknotes inserted or returned, automatic reboots and other functions.

It also monitors the temperature inside the machine with graphics.
