Voltage supply	110-240 V   50/60 Hz
Internal Temperature	-20° C / -25° C
Power consumption	750 W

### REAL TIME DATA SERVICE

Magex provides to all its customers a service for the management of the vending machines updated in real time, connected via web and accessible from laptops, mobile phones etc.

This allows you to view real-time data of each sale, the stock status, the coins/banknotes inserted or returned, automatic reboots and other functions. It also monitors the temperature inside the machine with graphics.
